

TECHNICAL DATA

CHERRY SEALER WAX CNC

**A PERFUMED HOT SPRAY WAX FOR AUTOMATIC AND SELF
SERVE CAR WASHES.**

CHERRY SEALER WAX is a liquid wax emulsion for use in the final rinse arch of automatic car washes. It performs exceptionally following the application of a foaming polish wax to provide a water repelling protective wax coating to the vehicles surface. CHERRY SEALER WAX produces rapid beading action which promotes additional dryness to the automobile.

ADVANTAGES

1. Contains anti-corrosive properties which assists in retarding the formation of rust.
2. Mixes readily and quickly with water forming a stable wax emulsion.
3. Assists in the elimination of water spotting.
4. Facilitates faster drying.
5. Safe for all metal surfaces.
6. Effective even in low concentrations.
7. Appeals to customer sense of smell due to cherry fragrance.

APPLICATION

CHERRY SEALER WAX is applied in the final rinse area of the car wash through a spray arch. Dilute concentrated CHERRY SEALER WAX by adding one part concentrate to ten parts water. This mixture should be applied to the vehicle at rate of eight ounces per car for optimum results. For automatic dispensing consult a Mondo Sales representative. The application of CHERRY SEALER WAX is the last stage of car wash process before entering the blowers.

STORAGE

Avoid excessive heat and keep product from freezing.
