

TECHNICAL DATA

AUTOFOAM

A LIQUID HIGH FOAM CAR WASH DETERGENT

AUTOFOAM is a dark, green liquid concentrate of unusual foaming properties. AUTOFOAM is a very stable foam of high density even at high dilutions. AUTOFOAM is a high foaming detergent specially formulated for all types of vehicle washing systems.

ADVANTAGES

1. Superior cleaning action due to high active detergent content.
2. Economical to use, cleans well even at low concentration.
3. Biodegradable and phosphate free.
4. Neutral liquid - safe for all painted surfaces, mild to the hands.
5. Rinses spot free.
6. Provides excellent lubrication to vehicles surface.

APPLICATION

AUTOFOAM is generally dispensed automatically with detergent control system (ie hydrominder or diaphragm chemical pumps) to ensure consistently high standards of results and eliminate product wastage. For best results dilute one part AUTOFOAM to one hundred parts water.

In total, approximately one ounce of pure concentrate per vehicle is required for optimal cleaning and lubrication to brushes. AUTOFOAM is adaptable for use in foam generators in automatic tunnels, foam brush units in self serve coin car washes, and for hand detailing.

STORAGE

Avoid excessive heat and keep product from freezing.

MATERIAL SAFETY DATA SHEET

Section 1 - Product Identification and Use.

Product Name: Autofoam

Use: Car Wash Detergent

Manufacturer:

Mondo Products Company Limited
695 Westney Road South
Unit #1, Ajax, Ontario L1S 6M9
Emergency No. : 1-800-465-5676
Canutec No.: 1-613-996-6666

Supplier:

Same

TDG Hazard Classification: Sodium Dodecylbenzene Sulphate solution, class 9.2, PIN 9146, P.G. III
WHIMIS Classification: D2B

Section 2 - Hazardous Ingredients

Hazardous Ingredients	%w/w	PIN/CAS #	LD 50	LC 50
Sodium Dodecylbenzene Sulphate	10-30	25155-30-0	n/d	n/d
Sulphated Alcohol Ethoxylate	10-30	32612-48-9	n/d	n/d

Section 3 - Physical Data

Physical State: Liquid

Appearance/Odour: Clear, Green, Mild Odour

Freezing Point (~C): 0~

Vapour Pressure: Same as Water

Solubility in Water (20~C): Soluble

Boiling Point (~C): 100

Coefficient of Water/Oil Distribution: n/a

Evaporation Rate: n/e

Specified Gravity (g/cc): 1.027

Vapour Density: same as water

Percentage Volatile: >60%

Odour Threshold: (PPM): n/d

Section 4 - Fire and Explosion Data

Flammable [] Yes [X] No

Flash Point (~C): n/a

Auto Ignition Temp (~C): n/a

Extinguishing Media: Water [X]; Dry Chemical [X]; Carbon Dioxide [X]; Foam[X]

Special Fire Fighting Procedures: Normal fire fighting procedures may be used.

Hazardous Combustion Products: Oxides of Carbon, Nitrogen and products of incomplete combustion.

Explosive Sensitivity: none.

Section 5 - Reactivity Data

Stability: [] Stable [X] Unstable []

Conditions to Avoid: none known

Incompatibility (Materials to Avoid): Strong oxidizing and reducing agents.

Hazardous Decomposition Products: None known.

Conditions of Reactivity: n/a

Section 6 - Toxicological Properties

Effects of Acute Exposure to Materials:

Eyes: May cause reddening and irritation.

Skin: Prolong or repeated exposure may cause irritation.

Ingestion: May cause irritation of mouth, throat, nausea and vomiting.

Inhalation: Mist may slightly irritate nose, throat and lungs.

Effects of Chronic Exposure to Materials: n/d

Section 7 - Preventative Measures

Personal Protective Equipment

Gloves : Rubber Gloves

Other: Impervious Clothes

Footwear: Rubber Boots

Eye Protection: Chemical Goggles

Respiratory Equipment: None required.

Special Handling Procedures : n/a.

Ventilation Requirements : Use a well ventilated area.

Incompatibility: None known.

Spill Procedures : Small spills - Flush with water. Large Spill - contain and collect in a container. Flush spill area with lots of water.

Waste Disposal : Dispose in accordance with all Local, Provincial and Federal Regulations.

Storage Requirements: Store in a cool, dry area, in a closed container. Avoid freezing.

Section 8 - First Aid Measures

Eyes:: Flush with plenty of water for at least 15 minutes. Hold eyelids open while rinsing. Contact a Physician.

Skin: Wash contaminated area with warm water. If irritation continues get medical attention.

Ingestion: If victim is conscious administer 1-2 glasses of water. Contact a physician.

Inhalation: Remove victim to fresh air. Contact a Physician if breathing difficulties persist.

Additional Information: n/a

Section 9 - MSDS Preparation

Sources Used : MSDS, WHIMIS Regs.

Preparation Date : October, 2010

Prepared By: Mondo Products Company Limited
